# The Times

TUESDAY MORNING, DECEMBER 18, 1906.

GEN. OTIS RETURNS.

Suffering Relapse on Voyage from Honolulu—To Arrive in Los Angeles Today.

(BY DIRECT WIRE TO THE TIMES.) SAN FRANCISCO, Dec. 17.—[Exclusive Dispatch.] Gen. Harrison Gray Otis arrived at San Francisco today on the Japanese steamer Nippon Maru and is returning home on the Shore Line Limited, due in Los Angeles at 11 o'clock tomorrow (Tuesday) forenoon. Despite his weakened condition he made the voyage from Yokohama to Honolulu in better health than his physician had expected. Between Honolulu and San Francisco he suffered a relapse, caused by the raw winds of the North Pacific. His condition is not such as to cause alarm and it is reasonably certain that when he reaches home he will make a quick and complete recovery. He is in better health now than when he arrived at Yokohama.

MAKING COLE THE SCAPEGOAT.

ALLEGATION ON WHICH COUNSEL WITHDRAWS HIS PLEA.

Statute of Limitations Was Urged at the Captain's First Appearance in Manila Court, But Now Evidence Obtained by Threats Is Claimed of by Attorney.

(BY DIRECT WIRE TO THE TIMES.) MANILA, Dec. 17.—[Exclusive Dispatch.] The trial of Capt. Frederick

W. Cole of the quartermaster's department began today. Counsel pleaded statute of limitations, which plea formally was withdrawn. The waiver is now withdrawn, because counsel alleged, subsequent events developed tending to prove the prosecution was based on evidence obtained by threats and intimidation and by giving employment, or offers of employment, and by money and promises of immunity from the Inspector-General, Lieut. Col. Wood, to employees and former employees of the military authorities.

RENEHART A MILLIONAIRE.

It was announced tonight that there was no reason for depositors to be alarmed, as Renehart's personal assets were sufficient to cover any amount that might have to be made good. It is estimated here that he is worth considerably more than \$1,000,000.

GREENE STILL MANAGER.

Cole-Ryan Syndicate Has Not Secured the Control of the Gold and Silver Company.

(BY DIRECT WIRE TO THE TIMES.) BOSTON, Dec. 17.—[Exclusive Dispatch.] Stories that the Cole-Ryan syndicate has also secured control of the Greene Gold and Silver property is stated here to be unfounded. The syndicate is so far confining itself solely to copper properties.

JEWELERS RAISE PRICES.

Business in Gems and Baubles Is Greatest in History of Trade in This Country.

(BY THE ASSOCIATED PRESS—P.M.) NEW YORK, Dec. 17.—Manufacturers' jewelers have held informal conferences of late and talked over the subject of making uniform advances in prices of the more staple articles they make. Without waiting to reach any agreement, many say that they have already put up prices in many lines.

WHITE HOUSE DINNER.

WASHINGTON, Dec. 17.—The President and Mrs. Roosevelt have issued invitations for a dinner Friday, January 4, which will be followed by a musicale.

RAIDED BY AFRIDES.

CALCUTTA, Dec. 17.—A band of raiders, composed chiefly of Sukkha Khel Afrides, appeared at Badbeh, December 15, captured seven persons, including two Sikhs, attached to the band of police, and ran off with a number of camels and cattle. Two days ago the raiders raided the police post at Rabi, where they secured a number of rifles.

DECLARES ENMITY TO GRAFT.

Spreckels was asked by Ruef's counsel if he did not guarantee \$100,000 to prosecute grafters just after he had been refused a street car franchise last June. Spreckels said:

"No. I determined to furnish this money over one year ago when I began to investigate municipal grafts. I have spent much money since and I propose to go on until the city government is purged of grafters."

SHORTAGE IN BANK.

Cashier Gets Nearly a Million.

Over Half of the Amount Involved in Waynesburg Is in Rediscounts.

Town in Mourning Because of the Failure—Business Houses to Close.

Guilty Official Waives Hearing—New Arrests Contemplated.

(BY THE ASSOCIATED PRESS—P.M.) PITTSBURGH (Pa.) Dec. 17.—[Exclusive Dispatch.] Cashier J. B. F. Rinehart of the Farmers and Drovers Bank of Waynesburg, Pa., waived his preliminary hearing today, on charges of having made false entries of nearly \$1,000,000, and was held in \$10,000 bail.

MINIMUM TEMPERATURES: Boston, 32; New York, 34; Washington, 38; Pittsburgh, 30; Cincinnati, 28; Chicago, 26; Kansas City, 20; St. Paul, —6; Jacksonville, 62; Los Angeles, 39.

On All News Stands, 5 CENTS

TEHERAN EN FETE.

Persians Hail New Monarch.

Though the Shah Is Much Better, the Crown Prince Is Installed.

Great Tamascha in Progress in Honor of Valiabad, Who Is Popular.

Doctors Surprised by the Recuperative Power of the Sick Ruler.

(BY DIRECT WIRE TO THE TIMES.) TEHERAN (Persia), Dec. 17.—[Exclusive Dispatch.] The Crown Prince is King.

A proclamation will be issued tomorrow, stating that he reigns so long as the Shah's illness continues.

The situation today borders on the comical. The entire town is given over to ovals on the Crown Prince, who is now here and who inhabits one of the palaces formerly occupied by his grandfather's wives.

STREETS ANIMATED.

The streets of Teheran present a festive appearance, and are full of carriages, ministers, soldiers, the famous Bakhtiari (wild troops) in their blue uniforms, the Faehes, dressed in red, and eunuchs and troops of the guards, galloping wildly hither and thither.

GREAT FESTIV L BEGINS.

In fact, a great tamascha or festival has begun. The name of the Crown Prince is on the tongue of every one, and none talk of the sick monarch, who, by the way, is better today.

The Shah called his ministers together and made the remark that now the Prince Valiabad is here and is well, they can take the Shah on a pleasure trip abroad.

Constitutional reigns owing to the phenomenal recuperative powers of the monarch, who believes all medical diagnosis and cheats the prophecies of the doctors.

Valiabad's presence here does away with all possibilities of court intrigues against his succession.

HIS HEAD HAMMERED.

Bakersfield Man Seriously Injured in Encounter in the Oil Fields.

No Arrest.

(BY THE ASSOCIATED PRESS—P.M.) BAKERSFIELD, Dec. 17.—In a personal encounter at the oil fields, Henry Penzinger, a resident of this city, was struck over the head with a hammer by a workman named Floyd and so seriously injured that he may die. His skull was fractured on the whole of one side, the bone sustaining five distinct breaks.

An operation was performed by Drs. Carson and Fowler and the depression lifted from the brain and part of the skull removed. Penzinger is semi-conscious tonight but cannot articulate. No arrests were made as eye witnesses to the affray testified that Penzinger was the aggressor.

STEAMER GOES ON ROCKS.

Captain Blows Out His Brains—Passengers Are Landed—Vessel May Be Saved.

(BY THE ASSOCIATED PRESS—P.M.) KINGSTON (Jamaica), Dec. 17.—The Hamburg-American line tourist steamer Princess Victoria Louise, from New York December 12, for tonight, went ashore last night off Point Royal, while on her way back to New York. The passengers were landed here today safely.

Cap. Brunwig, who was in charge of the Victoria Louise when she struck, committed suicide by blowing out his brains.

The German cruiser Bremen has gone to assist her.

The Victoria Louise is pounding heavily, but hopes are entertained that she will be saved. She is resting on a rocky ledge.

BISHOP M'CAVE DYING.

Noted Methodist Divine Unconscious and His End Is Reported a Matter of Hours.

(BY THE ASSOCIATED PRESS—P.M.) NEW YORK, Dec. 17.—Bishop Charles C. McCabe of the Methodist Episcopal Church is dying at the New York Hospital. Late tonight he was unconscious, and the end was said to be a matter of hours.

Last Tuesday the bishop was stricken with apoplexy while passing through this city on the way to his home in Philadelphia, and was removed to the hospital. He is 70 years of age.

TO TUNNEL.

THE CHANNEL.

(BY THE ASSOCIATED PRESS—P.M.) LONDON, Dec. 17.—A bill empowering an Anglo-French company to construct a tunnel under the British Channel has been deposited with Parliament. It is estimated that this scheme will involve an expenditure of \$20,000,000. It is proposed to build two parallel tunnels twenty-four miles long.

## TOURNAMENT RUGBY GAME.

English Challenge Orange Belt Champions.

Redlands or Picked Fifteen Asked to Play.

New Feature Planned for Rose Carnival.

The Los Angeles Rugby Club, made up of unattached Rugby players living in Los Angeles, and numbering in its membership several old-time star performers, has issued a challenge to the Redlands High School team, which captured the championship cup in the recently-concluded Orange Belt League series, to play at the Pasadena Tournament of Roses New Year's Day.

The Redlands boys are accredited with being a husky bunch, and with having demonstrated their ability to put up a good class of Rugby, but in case they are not willing to go up against the more experienced club aggregation they will be allowed to draw from the other crack teams of the Orange Belt, and the team will be called an all-star Orange fifteen.

The main reason back of the attempt to put on another game of Rugby is the interest in the game manifested throughout the season in the Orange Belt. Almost all of the contests in the series for the championship brought out large crowds, and the players themselves are anxious to have the season extended.

The Redlands Rugby team defeated in turn Pomona High School, Riverside High and San Bernardino High School, and Los Angeles Polytechnic, closing the season with a clean record. The team is fast and strong, and while fully the equal of the other teams in speed, its superiority lies chiefly in its superior skill and earnestness. It will be a dangerous opponent for the clubmen who will have less opportunity to train and get into first-class condition.

The Rugby Club has figured in only two games during the season. Its first game was with the regular Polytechnic High School team, which it defeated by the score of 3 to 0, although only a makeshift team was gotten together, and no effort was made by the

## GOTCH REGAINS CHAMPIONSHIP.

(BY THE ASSOCIATED PRESS.—P.M.)

KANSAS CITY, Dec. 17.—Frank Gotch, of Iowa, tonight defeated Fred Beel of Wisconsin in a catch-as-catch-can wrestling match at Convention Hall, in this city, winning two straight falls. Gotch won the first fall in nineteen minutes and forty-eight seconds, and the second fall in thirty-eight minutes. Eight thousand people saw the contest.

## CLIMBING OLD MT. WILSON TRAIL.

LOS ANGELES CLUB ENJOYS UNIQUE EXCURSION.

Athletes Throw Snowballs at Each Other in the Clouds, Pass Through Orange Groves En Route, and Then Bathe in the Surf at Beach in Few Hours' Time.

The "Mountain Climbers" did some fast work, Sunday, when they climbed Mt. Wilson and then got to the beach in time for a bath in the surf on the same day. Mt. Wilson's nine-mile grade proved too much for the club's members in the attempt to break the record. The summit was reached in two hours and forty-five minutes, the record for the ascent by foot of the old Mt. Wilson trail being two hours flat.

The trail was washed away in some places, and this made walking both difficult and dangerous. There is still considerable snow on the summit, especially on the north side, where it is several feet deep.

About fifteen members of the new club were on hand to make the climb. They were all confident of being able to break some records, but long before the half-way house was reached the majority of the athletes had a very pained expression on their faces and one man was asking if "this was not the top."

On the return trip to Ocean Park there was a short stop for lunch, and the party took a plunge in the surf.

## ATLANTICO FALLS AND BREAKS LEG.

"LUCKY" BALDWIN'S MISFORTUNE IN STEEPCHASE.

Two Favorites Romp Home Winners and Three Fairly-Played Second Choices Also Capture Money. Jockey Finn Rides Both Good Things of the Day's Card.

Atlantico, a 5-year-old gelding owned by "Lucky" Baldwin broke his leg and had to be destroyed after the steepchase event which opened the card at Ascot yesterday afternoon. He lost his rider along about the fourth or fifth jump and ran away. The stable boys gave chase and opened the gates near a fence. The horse tried to escape, but fell, breaking his leg. Trainer West immediately ordered him shot.

William Parrish also suffered misfortune, going down at the third jump, but was not injured, and Jockey Royce escaped unhurt. Casador had no trouble annexing the purse, getting away second and commanding the lead throughout after Parrish fell.

Gorgalett, coming from the bunch at the three-quarter pole, had no difficulty in winning the feature event, the free handicap, finishing four lengths in the lead, pulled up with Macy, Jr., an easy second. Stillecho took third money by a head from Supreme Court, which dropped away from second place in the stretch.

Two favorites cashed for the talent, and in three others second choices were fairly well played, crossed the wire first. In the third race, at five furlongs, Lord Stanhope, in his first start of the meeting, had an easy thing of it, being the only horse of class in the crowd. Leading by six lengths in the stretch, he eased up in the last furlong and still had two lengths to spare over the fast coming Hazeltine. In the fifth Red Garter was the good thing, winning as he pleased by four lengths, going away. Finn rode both the winning favorites.

Results: Handicap steepchase, short course: Casador, 149 (H. Lewis), 3 to 1, won; Dr. Logan, 134 (Kohler), 5 to 2, second; Tom Cogan, 165 (Warrick), 3 to 1, third; time, 3:06.5. Atlantico and William Parrish also ran.

One mile: E. Surples, 108 (McDaniel), 2 to 1, won; Search Me, 113 (Booker), 4 to 1, second; Uncle Henry, 113 (C. Koerner), even, third; time, 1:42.4. Phiz, Mortlake and Golden Light also ran.

Five furlongs: Lord Stanhope, 101 (Finn), even, won; Hazeltine, 87 (Talbert), 4 to 1, second; Little Minister, 75 (Joan of Arc), 10 to 1, third; time, 1:16 3-5. Joan of Arc, Kitty McCarty, Jean

## Don't Forget He Knows the Name

## "SILVERWOOD"

## Means Quality

A man hates a smoking jacket that hangs on him like a shapeless sack.

He hates a scarf that was made up from petticoat silk and sold at a dry goods store.

He hates those knick-knacks that muss up his desk and crowd his pockets. But he does like Silverwood goods. He buys his own things at Silverwood's.

See the swell smoking jackets as low as \$5.00. See the new scarfs, suit cases, gloves, opera hats, silk mufflers, silk hose. See the thousand and one sensible ideas ranging from 50c upward as high as you'd care to go.

## The Silverwood Stores

221 South Spring Broadway and Sixth Also Bakersfield and Long Beach.

## MCAREY MAY SECURE BURNS--O'BRIEN BOUT.

LOS ANGELES will secure the second Burns-O'Brien battle. That is the opinion of those in a position to figure out the prospects. Strong interest in Los Angeles has come to the front with prospects of unalloyed aid to Manager McCarey of the Pacific Athletic Club, and were "Uncle Tom" so inclined he could flood the market with money with the assurance that he would come out even, at least, on the big mills.

But it is thought that Manager McCarey will not raise the offer of \$50,000 for the battle, for two reasons; because the purse is amply sufficient for any pair of fighters to scrap for; and because the mining camps may come to the conclusion that it is not worth the while to spend so much money for one battle when others almost as good may be secured for much less.

It is said that certain bodies of men in Los Angeles have offered to dispose of sufficient tickets to make up the purse of \$50,000 for the fight, if McCarey will demand more in proportion to their worth, with the result that the admission prices will be boosted all around, with the public suffering.

Burns and O'Brien had a few moments' talk with Manager McCarey yesterday morning, but nothing resulted. The gentleman from Rhyolite also exchanged greetings, but in an arm's length sort of way. Already he has secured thousands of dollars worth of advertising for his own cause.

Some persons have advised McCarey that the fighters should be allowed to go elsewhere, but that Tony says he will stick to his bid for a week and keep his word. The theory is that if this mill draws so many, better fighters will demand more in proportion to their worth, with the result that the admission prices will be boosted all around, with the public suffering.

Redlands High School Rugby Football team, Champions of Orange Belt League, and coaches.

players to train for the event. Last Saturday it defeated the Long Beach High School team by a score of 2 to 0, and gave a better idea of what it could do. In these two games a large number of players were tried out, and from them a first-class aggregation has been selected.

If the game is played on New Year's Day at Tournament Park, as anticipated, the following men will be seen in the line-up in all probability: Full-back, Pierce of Polytechnic; three-quarters, Tom Higgins and Jack White of U.S.C.; Rosey Holmes of Polytechnic; five-eighths, J. Cole, E. F. Calley, halfbacks, Pat Higgins, captain, H. O. Howard; forwards, E. S. G. Mather, E. Summerville of Ireland, C. Rickerhauer and L. Rickerhauer of Polytechnic; Norman Denham, C. I. Sweet and C. C. Manning.

## DIVISION OF PRIZE MONEY.

Folger and Root Receive \$1500 and \$3000 is Divided Among Other Six-Day Riders.

(BY THE ASSOCIATED PRESS.—P.M.) NEW YORK, Dec. 17.—The men who took part in the six-day bicycle race at Madison Square Garden last week spent today in resting. An informal meeting was held at the Hotel Bartholdi in the afternoon and the rivalries and animosities of the week were forgotten. There is nothing about the men suggestive of physical hardship. Each man who finished will receive a bonus. The prize money will be distributed today, when the winners will receive the biggest share of the \$4500 purse, and apart from prize money, Folger will get about \$1500 of this amount, and the remainder \$3000, will be divided on the percentage plan as the teams finished.

The race is said to have been the most successful from a financial point ever held.

## Your Holiday Trip.

Call or write Goulds System Office, 230 South Spring Street, for rates and information regarding your trip East for the holidays. Leave on Dec. 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 1935. See the Goulds System Office for details.

The trip was unique, and one that is possible in few States except California, for the members of this club threw snowballs at each other, passed through orange groves heavy with golden fruit, and then bathed in the surf, all in one day, which is pretty good for December.

Among those who made the trip were: W. W. Weir, H. J. Slater, F. Wilson Young, W. W. Terra, L. F. Schree, E. N. McMullen, A. B. Coyle, C. Myers, H. H. Behn, C. W. Sirch and W. S. Voorzanger.

## CENTREVILLE CHALLENGES.

Again Defies Southern California Teams for Championship Gridiron Contest.

The Centerville High School football team again has renewed its challenge to the high schools of Southern California for a game to decide the championship of the State. F. C. Huxley, Jr., assistant manager of the northern team, writes asking that the managers of the local schools endeavor to make arrangements for a game to be played on New Year's Day.

As the schools have decided not to play off the time that keeps the championship of the South in doubt, and the teams have disbanded for the season, it does not seem likely that a game will be arranged, although a contest between any one of the three leading teams in this part of the State and Centerville, which won the Academic League championship in the North, would be an attractive event.

## To Cure a Cold in One Day.

Take Executive Bromo Quinine Tablets. Trustworthy relief follows. It is fast. Dr. W. G. Groves' signature is on each box. See Gray Hair Quickly Restored.

Green, Trolander, Arcadia Bell, First Prize in the Cup, Nevada and Cadet also ran.

One mile, free handicap: Gorgalett, 108 (Preston), 5 to 1, won; Macy, Jr., 99 (Hilly), 5 to 1, second; Stillecho, 114 (H. Smith), 8 to 1, third; time, 1:40.4. Supreme Court, J. P. Donahue, Piquet, Bill Curtis and Chimney Sweep also ran.

## Won in Desperate Drive.

SAN FRANCISCO, Dec. 17.—The card at Emeryville, today, was a fair one but the weather was disagreeable and the track heavy.

The third race resulted in one of the keenest contests seen here, between Anvil and Salable, and it was only after a desperate drive that Anvil poked his nose in front. The favorite, Fury, ran in very poor form. Burleigh's giant victory in the fifth aroused great enthusiasm when he bid his best for this battle while Tonahap may prefer to gauge the outcome of the Gans-Herman battle before he enters the ring.

Some day a fight between Fury and Burleigh will be a great event. Fury is a fast and powerful fighter, while Burleigh is a clever and experienced fighter. The outcome of the fight will be a great event for the fans.

One mile: Anvil, 105 (Wright), 3 to 2, won; Salable, 104 (McCarthy), 5 to 1, second; Fury, 109 (Sullivan), 7 to 1, third; time, 1:44 1-5. Talamond, Jim Pondreagst, San Remo, Rollick and Christie also ran.

One mile and an eighth, selling: Isabella, 108 (Williams), 16 to 1, won; Major Tommy, 107 (C.V. Miller), 3 to 1, second; Lella Hinn, 108 (Griffoval), 20 to 1, third; time, 1:38 2-5. Delagosa, O'Leary and Invader also ran.

Vesna second, Spion third; time 1:02 3-5. A sixteenth: Envoi won; James Reddick second, Granada third; time, 1:39 3-5.

Sleepechase, short course: Arabel won; Little Wally, second, Subador third; time, 2:19 1-5.

Mile and quarter, selling: Fonsoloca won; Flavius second, Big Bow third; time, 2:12.

## HYLAND TO BOX LEWIS.

Side Bet of \$1000 Posted—Lewis Also Will Meet Jimmy Gardner in Denver.

(BY THE ASSOCIATED PRESS.—P.M.) DENVER (Colo.) Dec. 17.—"Fighting Dick" Hyland of San Francisco and Harry Lewis of Philadelphia have been matched to fight for \$1000 a side at 132 pounds, weigh in at 3 o'clock in the afternoon before the club office in the largest purse. Jimmy Gardner of Lowell and Harry Lewis also were matched today to meet in a ten-round bout at 132 pounds ringside before the Coliseum Athletic Club of this city, January 2.

A wager of \$1000 was made between McClinton, Hyland's manager, and Dickerson, manager for Lewis, and one of \$2000 between Johnny Corbett, manager of Gardner, and Dickerson for Lewis.

The Hyland-Lewis fight probably will take place at San Francisco, it is said.

## TOLD SHEA HE TOUGHT TO HANG.

(BY THE ASSOCIATED PRESS.—P.M.)

CHICAGO, Dec. 17.—(Exclusive Dispatch.) That a short rope and a tight noose were advocated as a punishment for Shea by at least one of his associates during the teamsters' strike, was a part of the evidence at today's conspiracy hearing in the Federal Court. Shea, president of the Teamsters' Association, testified that he had told Shea he was to be hanged at the nearest gallows.

Under Shea's direction cab drivers were refusing to discharge fares in front of "strike-bound" cabs, despite the fact that the drivers' contract specifically stated that all differences should be submitted to arbitration.

Shea, under Shea's direction cab drivers were refusing to discharge fares in front of "strike-bound" cabs, despite the fact that the drivers' contract specifically stated that all differences should be submitted to arbitration.

SPINNERS GET RAISE. STON, Dec. 17.—The week before Christmas was celebrated in happily to the nearly 20,000 operatives employed in the cotton mills at Lowell, Mass., where an advance in wages was voted by the Lowell manufacturers granted to about 10,000 operatives last Friday a 3 per cent. increase in wages. The action, however, had been considering for some time. A 3 per cent. increase, at a meeting, was voted, but it took until the last night of the year to put the increase into effect. The demand for the increase was made until next Saturday.

made another flight yesterday  
for more than an hour

## THE CITY IN BRIEF

### NEWS AND BUSINESS.

#### Burglars Get Money.

Burglars entered the home of George Katsis at No. 227 1/2 East Fourth street last night and secured \$60 and valuable clothing. By the use of a pass key the room-women got in. They rifled all the drawers and broke open trunks.

#### Berries Are Ripe.

Clusters of ripe red raspberries are picked daily from several bushes in the yard of L. A. Smith, No. 217 West Twenty-second street. The demonstration is pretty good proof of the sublimity of the Los Angeles climate in midwinter. Many other bushes at the same place are in bloom.

#### Unsecured Claims.

Jack McCreary of San Pedro, a foreman of a grading company, has filed a petition in bankruptcy in the Federal court. He has unsecured claims against him of \$285.53, mainly for materials furnished and horse feed. To offset this he has assets amounting to \$24, which are claimed as exempt.

#### Avoids Collision, Arm Broken.

A. F. Healy of No. 1313 South Grand avenue fell from his bicycle near Tenth and Figueroa streets last night, while attempting to avoid a collision with an automobile. He sustained a fracture of the right elbow and was removed to the Receiving Hospital, and thence home.

#### Tobin's Condition Improving.

The condition of J. A. Tobin of No. 717 East Twenty-second street is gradually improving, and he is able to sit up in his bed for a short time yesterday. Tobin fell from a ladder while working in a house at No. 244 Raymond avenue, and was sent to the Receiving Hospital. The attending surgeon says he will recover.

#### Chanuka Festival.

A sing sum for the aid of the Zionist movement was realized from the Chanuka festival, or "Festival of the Lights," which was held Sunday evening at the Olive-street synagogue under the direction of the Chavaya Zion Society. Rabbi Werner blessed the candles and chanted the traditional melodies, and addresses were made by several members of the society.

#### Locomotive's Woman Victim Dead.

Mrs. Katherine Scario, the aged Italian woman run down by a Southern Pacific freight engine while she was gathering firewood, Friday, died yesterday in the County Hospital of internal injuries. The body will be held for a coroner's inquest today. A woman has fallen to her death, the approach of the engine and did not know of its presence until it was upon her.

#### Within Two Inches of Death.

Mario Taranga escaped death by two inches yesterday. He was working in a building under course of construction at Washington and Oak streets. A heavy iron girder, up-ended in raising, fell. Taranga stood almost directly beneath it. The mass of iron passed close to the man's head and hit him on the right shoulder, fracturing the rib cage. He was taken to the Receiving Hospital.

#### Young Negroes Supposed Thieves.

Richard Nelson, Arthur Bell, Harry Eton and Harry Cunningham, negroes, were arrested at Eighth and San Julian streets, last night, by patrolmen on the charge of suspicion. According to the officers, these boys have been stealing lawn mowers, gasoline stoves and small household articles. A special officer tried to arrest one of the members of the gang earlier in the day, and the negro defied him in a futile encounter.

#### Dust-Laying Squabble.

All-eged infringement of a patent is the basis of a suit filed yesterday in the Federal court by Bernhard Singer, of Chicago, against the Hertz company, which runs the Gabor Hertz Chemical Works. Singer states that he had a patent for laying dust by means of a machine. He says he was in a trade with the product. Singer alleges that Hertz left his employ and started to manufacture the same article without permission. He asks for an injunction to prevent this, and also for an accounting of profits and triple damages.

#### Temperance Federation.

The W.C.T.U. Federation will hold an all-day meeting at Temperance Temple tomorrow. Business will occupy the morning hour, but the afternoon will present several features out of the ordinary. Mrs. Lulu Pike Little, county president of the Equal Suffrage Association, will speak on the "Relation of Suffrage to Pure Foods." Mrs. M. H. Elwood, of the Los Angeles Women's Press Club, on "The Ballot and Business Women." Mrs. Clara M. Williams, president of the city Equal Suffrage Association, on "The Duty of Women to the Exercise of Suffrage." Mrs. Sarah Howe Morris, of Santa Monica, will speak of "Our Achievements."

#### BREVITIES.

To real estate and other classified advertisers: The forthcoming Midwinter Number of THE TIMES, to be issued January 1, 1935, will be a splendid medium for the exploitation of attractive real estate offerings. Thousands of copies will be mailed by citizens of Southern California to friends abroad who are figuring on the New Year's Southwest. The rate will be 3 cents per word for classified announcements to run in the magazine section of this special issue. "Lit." copy will be received up to and including December 27.

This morning we will make a still deeper cut to reduce our stock before retiring from business. Framing a specialty at dealer's rate. The McClellan-Kant Co., 111 Winston street, below Main, bet. Fourth and Fifth.

J. W. Fry has moved his stock of mantles, grates, fires and andirons to his warehouse, cor. Los Angeles and Twelfth streets, where can be seen the largest assortment of black and brass fireplace trimmings to be found in the United States. Lowest prices.

For fine clear Havana Key West cigars by the box at wholesale prices, see Kingsbaker Bros. Co., 109 North Los Angeles street.

Dr. Hayden, osteopathic physician, removed, Temple Auditorium, Suite 516. Imported candles, novel designs, from 5 cents up. Also that wholesale Dillingham Printing Co., 215 W. Second.

Special Xmas excursion to Murray and Co.'s. Finest Xmas trees in town, 218 S. Broadway.

Very low prices on stationery until Xmas. Mung, Seventh and Hill. Children's shoe store, 204 S. Broadway.

#### HARPER HONORED.

Mayor-Elect Is Chosen Director and Treasurer of the Democratic Club at Its Annual Meeting.

Mayor-elect Harper was elected a director and treasurer of the Democratic Club at its annual meeting last evening at the headquarters, No. 342 South Broadway. The other directors are Nathan Cole, Jr., I. L. Clark, S. P. Clark, Joseph Messner, W. T. Craig, Fred L. Sexton, C. F. Johnson, Eugene Gorman, Ernest H. Wilson, M. J. McGarry, Anthony Schwamm, A. Niemeyer, George M. Calk and A. S. Patterson.

Mrs. Gorman was chosen president, Cake vice-president, and Metcalf secretary. Following the meeting the directors enjoyed their annual dinner at Clark's restaurant on South Main street.

The second annual banquet of the Democratic Club will be given Thursday evening at 7 o'clock at Levy's. George M. Calk will be chairman, and Earl Rogers toastmaster. Theodore A. Bell, late Democratic candidate for Governor, will be the orator of the evening, speaking on "Democracy: Its Present and Future." Other speakers will include I. B. Doerflinger, M. J. McGarry, J. H. Bush, Anthony Schwamm, I. A. D. Hough, Dr. D. W. Edelman, D. F. McGarry, Nathan Cole, Jr., W. O. Morrison, and A. T. W. Carr.

#### VITAL RECORD

##### BIRTHS, DEATHS, MARRIAGES.

##### Births.

PEREIRA. On December 14, to the wife of Monica B. Pereira, No. 123 East Thirty-third street, a son, A. D. Pereira, 8 lbs. 10 oz. CAMPBELL. To the wife of James S. Campbell, No. 252 Alhambra street, a daughter, Josephine, 8 lbs. 10 oz.

##### Deaths.

HAMMOND. Mary J. Hammond died December 11, at 1141 1/2 Broadway, 72 years. Funeral from 1141 1/2 Broadway, 12 o'clock, Tuesday, December 12.

FINCH. At the residence of her daughter, Mrs. E. J. Finch, 1141 1/2 Broadway, a son, E. J. Finch, 8 lbs. 10 oz. Funeral from 1141 1/2 Broadway, 12 o'clock, Tuesday, December 12.

## THE PUBLIC SERVICE.

## SUMMARY OF THE DAY.

The City Council yesterday amended the ordinance prohibiting selling of pools and making books on horse racing, so this can be done within the racing inclosure. This is a compromise with Asot Park, the price of the racing club dropping its fight against the legality of the "strip" annexation election.

Two ordinances affecting the liquor selling interests were passed by the City Council yesterday. One allows wholesalers to sell smaller quantities than heretofore; the other requires a majority of frontage in the block represented when application is made for licenses.

The Board of Public Works decided yesterday to amend the spring-street paving, and to charge to each public utility company the cost for all damages which can be traced to any of its excavations.

The freight-carrying proposition was handed over to the incoming Council by yesterday's session.

John Huber was sent yesterday by Judge Smith to Prison for two years for breaking into and looting a forester's house on the west fork of the San Gabriel River.

Mrs. Caroline Smedley is seeking an annulment of her marriage, alleging that she was forced to participate in the ceremony, and that she left her husband, Frank Smedley, ten days afterward.

J. S. Miller is suing the Heinen-Pearson Company, which operates an automobile business at No. 1018 South Main street, on the ground that the company is responsible for a fire which destroyed his live stable.

Walter Cutts' father was ready yesterday to help send the young man to prison. The son's continued misbehavior has brought grief and need to the home where he was reared.

AT THE CITY HALL.  
A SCOT RACES MAY PROCEED.

CITY COUNCIL AND JOCKEY CLUB MAKE COMPROMISE.

Track Interests Agree to Withdraw All Opposition to Annexation of Strip, and Are to Be Allowed to Sell Pools and Make Books Present Racing Season.

Asot Park racing may continue. This is the compromise agreed upon yesterday afternoon by the City Council and the attorney for the Los Angeles Jockey Club, and sanctioned, recommended, in fact, by the Los Angeles City and County Consolidation Commission.

The Asot Park interests agree to immediately withdraw their suit to restrain the Secretary of State from filing the papers declaring the annexation of the "racing strip," which includes Asot Park, to the city of Los Angeles.

Members of the Consolidation Commission, headed by its president, S. A. Butler, and with J. J. Dillon, chief of their spokesman, appeared in the Council chamber soon after the session convened, and presented their report as to Asot Park.

This report urged the City Council to effect a compromise with the jockey club whereby the annexation proceedings might not be further hindered, and declared that the sense of the commission that such compromise would be justifiable, as the Asot Park interests would be enabled otherwise to cause continuous delays until such time as they had closed their racing season, and the city would be in no manner the gainer thereby, but the reverse.

Following this report, Samuel Haskins, as attorney for the Los Angeles Jockey Club, presented a communication signed by E. J. Randolph, J. M. Hale, J. J. Dillon, George H. W. Brooks, J. Myrick, Jr., and W. E. Dunn, asking that the city ordinance be amended so that Asot Park racing could continue during the season and pool selling and bookmaking could be carried on as before the annexation election. The proposition was made that if such action was taken the injunction suit would immediately be withdrawn.

Assistant City Attorney Hewitt presented an amendment to the ordinance bearing on pool selling, making the exceptions desired, but there also appears the clause that would be effective prior to the first day of April, 1937, which is the time for the closing of the Asot Park season.

The clause was strenuously objected to by Attorney Haskins, although he said that his clients did not "hope" to continue their racing after the close of the present season.

Judge Dillon also asked, in behalf of the Consolidation Commission, that this clause be stricken out.

Assistant City Attorney Hewitt maintained that the clause should remain, as it was the understanding in the City Attorney's office that the amendment was made simply to convey the present racing season; but finally the Council by unanimous vote decided to omit the undesired clause. The amended section now reads:

"That nothing in this ordinance shall be construed as prohibiting the sale of books or the sale of pools on a horse race, or the holding of money, or other thing, as a stake upon any wager as the result of a race track within the enclosure of a race track where such horse race is to take place."

The amended ordinance was promptly signed by Mayor McAllester, and it will appear this morning in the official City paper, thus becoming a law.

Attorney Haskins said last night that the stipulation regarding the dismissal of the suit would be filed in Los Angeles today, and an order would then be telegraphed to the Secretary of State to convey the racing season; but finally the Council by unanimous vote decided to omit the undesired clause. The amended section now reads:

"That nothing in this ordinance shall be construed as prohibiting the sale of books or the sale of pools on a horse race, or the holding of money, or other thing, as a stake upon any wager as the result of a race track within the enclosure of a race track where such horse race is to take place."

ments are allowed, with the exception of the City Hall block—Broadway, between Second and Third streets. An ordinance adopted several months ago, when an attempt was made to place a saloon in the Copp building, adjoining the City Hall, requiring the frontage of two-thirds of the property in this block on a petition before a saloon could be established in that territory.

MENDING STREETS. UTILITY COMPANIES MUST PAY. The asphalt paving of Spring street is to be systematically repaired through the order of the Board of Public Works, issued yesterday. There are hundreds of chuckholes and depressions throughout the whole length of the street.

But while these repairs will be made by the city, it is not intended that the final cost shall come out of the street department fund. A check will be made of each block on Spring street, and careful measurements are to be made at once to determine which depressions and faulty sections of paving have been caused by the excavations of public utility companies.

Each company will be held responsible for the cost of repairs, and bills will be presented to the city for payment.

This is the beginning of a campaign which is to cover all the paved streets in the downtown section. Of course there will be a percentage of chuckholes which the city will have to repair at its own expense; but it is estimated that at least 80 per cent of the holes on Spring street have been caused by the faulty back-filling of excavations made by the public utility companies; and it is probable a like percentage will be found on the other paved streets.

SMALLER SALES. SOI TO WHOLESALE. An amendment to the city ordinance regulating wholesale liquor selling passed through the City Council with scarcely a speaker raised its purpose. It was evidently planned so that the wholesaler can make sales in smaller amounts, although its provisions are somewhat obscure, according to the City Attorney. This is an amendment of Ordinance No. 897, New Series, and reads:

"For the purpose of this ordinance a wholesale liquor establishment is defined to be any place where spirits, vinous, malt or mixed intoxicating liquors are sold, served or given away in quantities of not less than one-fifth of a gallon, except in sealed original packages containing not less than one-half gallon, and to be drunk upon the premises where so sold, served or given away; and any person, firm or corporation who, as owner, agent, lessee or otherwise, conducts or carries on a wholesale liquor establishment as herein defined, for the purpose of this ordinance declared to be a wholesale liquor dealer."

The new ordinance bears the usual emergency clause.

FREIGHT CARRYING. COUNCIL PASSES THE BUCK. To the new City Council is bequeathed the task of settling the subject of freight carrying on the city railroads. Yesterday afternoon the Council decided to defer action until the members are seated; although Assistant City Attorney Hewitt appeared before this body and asked that he be instructed to proceed under both modes of action suggested by him a week ago. One of these methods is to declare the transportation of freight over the street railway legal and to proceed with arrests; and the other is to appeal to the Attorney General for permission to bring quo warranto proceedings. Both the motion and the second to carry the matter over to the next Council session were by members who will continue to sit in that body's sessions—Healey making the motion and Blanchard seconding it.

Main-Street Storm Sewer. The second lot of bids for the construction of the Main-street storm drain, to extend from Third to Sixth street, was opened yesterday morning by the Board of Public Works, which found that there were three bidders. M. I. Hostetter offered to do the work for \$544; John Genlin's figures were \$548; and E. C. Lovell's offer was for \$600. The board took the matter under advisement. While these figures are amended so that Asot Park racing could continue during the season and pool selling and bookmaking could be carried on as before the annexation election. The proposition was made that if such action was taken the injunction suit would immediately be withdrawn.

Following this report, Samuel Haskins, as attorney for the Los Angeles Jockey Club, presented a communication signed by E. J. Randolph, J. M. Hale, J. J. Dillon, George H. W. Brooks, J. Myrick, Jr., and W. E. been sitting on the election board at the recent city election, and he wanted to find the City Auditor.

Gift to City. Some of the Councilmen were shocked yesterday to learn that the city had received a gift from a railway company. The City Engineer in his weekly report stated that he had received a deed from the Pacific Electric Land Company, conveying to the city a triangular piece of land at the southwesterly corner of Ninth and Tennessee streets, which greatly enlarges the intersection of these streets. The deed was accepted and ordered placed on record.

Miles-Street Hearing. Property owners on Miles street will have a public hearing before the City Council next Monday afternoon at 3 o'clock. Meanwhile the City Engineer will determine whether the protestants against improvement have the majority of frontage represented on their petition. Some of the persons who had signed the protest wished to have their names withdrawn from the City Engineer's list of names that cannot be withdrawn from a protest, although they may from an original petition.

Street Confiscation. The Water Commission yesterday sent to the City Council a communication, making a protest against the manner in which property owners are using the space under sidewalks for basements, to such an extent that there is not left sufficient room for the placing of fire hydrants. The Council was asked to adopt a resolution prohibiting future action of this kind, and an ordinance to this effect will be forthcoming.

Railway's Appeal Denied. The appeal of the Los Angeles Railway Company from the acts of the Board of Public Works in levying an assessment against its property for payment for placing a sewer in Mission Road and Rowan street, came before the City Council yesterday, and was denied by that body. The company's claim was that its property received no benefit from the sewer, as the land was used for trucking.

Another addition is made to the city's area of ornamental street lighting. The City Council yesterday passed the resolution of intention to place ornamental lighting system on Carr street, between Hill and Main streets. The expense will be met under the provisions of the district municipal lighting act, the property fronting on the street being assessed to meet the cost.

Spur Track Wanted. The Lake Railway wants franchises for the more spur track. One of these is to cross Seventh street. One will be along the banks of the Los Angeles River, and the other will run just east of Myers street. Action was deferred by the Council until its room at the home of her present husband and Rowan street, came before the City Council yesterday, and was denied by that body. The company's claim was that its property received no benefit from the sewer, as the land was used for trucking.

Salary Ordinance Amended. The City Council yesterday adopted the recommendation of the Finance Commission, and passed an ordinance providing for the increase in salaries of that department, so that the salaried men will be paid \$100 per month each, to take effect January 1.

Collins Gets an Extension. "Tom" Collins, the blind City Hall guide, will hold his job for at least another sixty days, until the City Council takes action on a resolution, asking the Civil Service Commission to give Collins another sixty days, until the emergency appointed to this position.

For Municipal Frills. The City Council yesterday granted the request of Mayor McAllester that the sum of \$100 be taken from the general fund and credited to the Mayor's fund. It is understood that a general rejuvenation of the Mayor's official suite will be made on the occasion of the Mayor-elect Harper's inauguration.

Another Salary Raise. The superintendent of children's playgrounds will receive a salary of \$100 per month after January 1, in accordance with the salary schedule the City Council took yesterday. The salary originally was \$75, but at that time there was but one playground in the city; now there are several of them.

Adjourned Session. The City Council will hold an adjourned session tomorrow afternoon at 2 o'clock. At the time the Los Angeles Pacific suit against the city will be further considered.

AT THE COURTHOUSE. SWEDE TWICE ROBS RANGER. SENTENCED TO STATE PRISON FOR TWO YEARS.

After First Conviction Huber Escapes from Chain Gang—Returns Year Later to Loot Again Lonely Cabin and Encounters Forest Guard Who Recognizes and Arrests Him.

John Huber, an ill-looking Swede, was brought to trial yesterday before Judge Smith. Within two hours a jury had been impaneled, the case tried, a verdict returned, and the defendant sentenced to two years at Folsom.

"I'm an anarchist, and the world owes me a living," said Huber, as he sat in the courtroom.

He was arrested by Will Bacon, a forest ranger, on October 11 last, as he was making his way, along the west fork of the San Gabriel River, beyond the pine flats. Huber was loaded down with blankets, and a lot of other stuff. The forest ranger met him and recognized him as the man whom he had arrested a year ago for looting his cabin on the west fork.

It is probable that the fellow had been looting again, the ranger thought, as he walked back with him, and discovered that his surprise was correct, and that the fellow had been looting again.

Huber at first told him that he had bought his outfit at Monrovia, and was coming to the river to make a living, and finally confessed that he had stolen the things.

Huber was sentenced to two years for the same offense, but contrived to escape from the chain gang.

WIFE ASKS ANNULMENT. FORCED MARRIAGE ALLEGED. Mrs. Caroline C. Smedley, a woman of 22 years, claims to have been married against her wishes, and almost at the point of a pistol, and she is now in court seeking an annulment of the ceremony.

She says that she has been afflicted with lung trouble, and that she came from her home at Chester, Pa., for her health. Arriving in Los Angeles on January 1 last, she secured a room at the home of her present husband, and had hardly unpacked her trunk, she averted, when young Smedley began to make love to her. He soon begged her to marry him, but she says that she refused to consider such a proposal.

Smedley, it is alleged, was insistent, and finally became very angry. Mrs. Smedley claims that he told her that if she persisted in refusing to marry him, he would shoot her. Believing his claims, the girl kept on his word, she consented to the marriage, which took place on January 25—just fifteen days after the couple met each other. On February 3 Mrs. Smedley avers that she left her husband, and has since refused to return to him.

SUES AUTO COMPANY. WHEN HIS STABLE BURNS. J. S. Miller is suing the Heinen-Pearson Company, which operates an automobile business at No. 1018 South Main street, on the ground that the company is responsible for a fire which destroyed his live stable and its contents. For his own loss he asks \$250, on an assigned claim, \$200 for the stable and on another assigned claim \$250 for the contents of a pine horse which perished in the flames.

Miller avers that the automobile company started a fire which spread to his stable and that sparks set the stable ablaze.

COURTHOUSE NOTES. ASKS FRANCHISE. Jas. S. Green yesterday filed a petition with the Board of Supervisors asking that they publish for sale a franchise for an electric road to begin at Eagle Rock avenue, where it joins the city limits, and continue down the avenue to its intersection with Annandale View Terrace.

ELEVATOR ACCIDENT. Allen Craig has begun suit against the Los Angeles Trust Company to recover \$215 as damages. Craig was janitor in the Los Angeles Trust Company's building, and on the morning of October 26, as he was in the act of entering the elevator, it started, he alleges, and he was jammed between the machine and the shaft. Craig avers that he was rushed badly and that his jawbone was broken.

LYNCH DIVORCE. Netta H. Lynch granted a divorce from W. E. Lynch yesterday on the ground of failure to provide. The parties were married in Riverside county in March, 1905.

ASKS DAMAGES. J. Duckworth is suing the Los Angeles Railway Company to recover \$500. The plaintiff claims to have been riding in his bicycle on East Fifth street, near Frick street, on November 12. He says he was obliged to ride on the right of way in order to get around a wagon, and that noticing a car coming he was turning off the right of way when his wheel was struck by another car and he was injured.

DIO OF DESERTIONS. Minnie Brazil was granted a divorce from George M. Brazil on the ground of desertion. The parties were married at Independence, Mo., in 1915. After the divorce, she left her husband and one child. Robert T. See was granted a divorce from Carrie See, on the ground of desertion. The parties were married in Vancouver in June, 1900, and in November, 1903, the wife left her home.

Speeders Are Fined. William Fietich and Harry De Allen gave two motorcycle officers a hard chase, themselves mounted on motorcycles. Sunday. They were given \$20 or twenty days by Police Judge Austin yesterday.

ANDERSON &amp; CHANSLOR

See Our South Window

The Display Will Make You Hungry

If you want a glimpse of real Christmas cheer, have a look at our south window. It is a Christmas window—one of the kind to cure a jaded appetite. There are nuts, layer raisins, stuffed figs and dates, rich chocolates, crystallized fruits—as well as the old-fashioned broken candy you used to like so well. We are fixed to take care of your Christmas needs—all sorts of good things of the finest quality, at moderate prices. Beginning Thursday night, we will be open evenings to accommodate Christmas buyers. Help us to serve you as we want to serve you, by making your purchases early.

We believe we get more than our share, perhaps, of budding Walnuts—the very cream of this season's crop. So we're prepared to send you something a little extra when you order walnuts. Price 25c a pound.

THE INFERIOR COURTS. CASE OF CUTTS IS UNUSUAL.

FATHER READY TO TESTIFY AGAINST SON.

Says Boy Has Ruined Family by Continual Misbehavior—Case Postponed Until Tomorrow Morning. Forger Had Sell Over—Invalid Englishman Tells Pitiful Story.

His old father was in the Police Court ready to testify against Walter Cutts for check forging yesterday. The man's lips were drawn tight and his face was stern. The boy had ruined his home by a series of disgraceful wrongdoings. But Cutts did not go to the stand against his son.

A faulty complaint caused postponement of the case. Deputy Prosecutor McCormack was apprised of this fact by Justice Austin. The hearing was postponed, pending emendation of the complaint, until Wednesday morning.

When a patrolman arrested Cutts Monday of last week he did it because he caught the young man stealing a can of milk. He investigated the case and found that his prisoner had been forging checks. Then he learned Cutts' record. After having been in the Police Court for having stolen a bicycle, he got his complaint. He did it by going direct to Dist. Atty. Fredericks. It is believed that Cutts may possibly be mentally wrong. Should this materialize he will in the end be sent to some asylum.

Since he has grown to young manhood the prisoner has been a criminal, according to the police. Several years ago his father and mother were in comfortable circumstances. Then the father died, and the mother was left to support the family. Money for defense of the son was obtained by the father's friends. Now the father says their home is unhappy and the mother has had to help herself in its support.

Tells Sad Story. John Champey told Police Justice Austin a pitiful story yesterday. He was allowed to go home to his family on his own recognition, to come up today for having stolen some small water filters from a local department store during the morning. Champey is an Englishman, and an invalid. He buys the filters and sells them to householders at an advance.

Bad Bank Clerk. H. H. Sinclair, who was once a bank clerk in Los Angeles, was yesterday bound over to the Superior Court for petty larceny. He was charged with the charge, but the stolen articles were of comparatively small value. Sinclair stole these things from a room in the Melrose Hotel. He had formerly stolen a watch. He confessed his crimes.

William Fietich and Harry De Allen gave two motorcycle officers a hard chase, themselves mounted on motorcycles. Sunday. They were given \$20 or twenty days by Police Judge Austin yesterday.

**WATER BOARD OPERATIONS.**  
Report Indicates Economy and Efficiency.  
Commissioners Show a Rapid City Growth.  
Capita Consumption Is Cut by Meters.  
The annual report of the Board of Commissioners for 1936, adopted and transmitted to the City Council by the Board of Public Works, shows a rapid growth in the city's water consumption. The report indicates that the water board has been able to maintain a high degree of economy and efficiency in its operations. The capital consumption is cut by meters, and the report shows a rapid growth in the city's water consumption. The report indicates that the water board has been able to maintain a high degree of economy and efficiency in its operations. The capital consumption is cut by meters, and the report shows a rapid growth in the city's water consumption.

**TRUCKLOADS OF DOCUMENTS.**  
Santa Fe Will Produce Them Today Before the Federal Grand Jury in Rebate Probing.  
Truckloads of documents from the archives of the Santa Fe will again grace the Federal grand jury room today in spite of the efforts of the railroad to prevent it. Copy books containing the rebate papers and vouchers on payment of claims for refunds of freight paid will be produced for the inspection of the jurors. These copies are for all of the years 1904, 1905 and 1906 up to August 1, and they cover approximately 80,000 transactions. H. E. Cole, chief claim clerk of the Santa Fe office here, was recently subpoenaed to come before the grand jury and bring all the papers referred to. T. J. Norton and H. V. Van Cott, attorneys for the railroad, prepared a motion to quash the subpoena, and the motion was argued yesterday before Judge Welborn. The contention of the railroad is that the District Attorney is simply going on a fishing expedition, to find what he can, and that there is no probable cause, supported by any evidence, to warrant his demanding such a "blanket" subpoena. Unwarrantable search without information, or trial by the Constitution, is the main objection of the railroad, but they also say that the papers asked for are copies, and not valid evidence while the originals are in existence. The company states that it stands ready to produce any of the originals in its possession when they are specifically called for, and that this is as much as it is required to do. Judge Welborn denied the motion, virtually holding that the District Attorney has a right to go "fishing" if he wants to. Consequently, the Santa Fe will be compelled to produce. In its motion the company urged that it was put to a great amount of inconvenience and expense in carting around thousands of documents, most of which were not even looked at, and had to be returned and redistributed. **Haddell Bound Over.** A. L. Haddell, the check forger whom Detective Roberts brought back from Oakland, will be given his preliminary hearing in Police Court tomorrow afternoon. He forged Sunset Telephone Company checks in this city, according to the police. **PATENT RIGHTS LITIGATION.** San Jose Manufacturing Company Alleges Infringement and Sues Ventura Man and Wife. An old suit has been revived by the filing of an action in the Federal Court against William McCreary Ramsey and his wife of Ventura. The complaint is the Anderson-Barrgrove Manufacturing Company of San Jose, which holds a patent for bleaching nuts. This is the Farrel patent, which has caused a good deal of litigation among walnut growers. About two years ago the San Jose company brought suit against the Fullerton Walnut Growers Association for violation of the patent rights. Ramsey was using the same process as the association so he made an agreement, it is said, to share part of the expense in fighting the case. A judgment upholding the rights of the Anderson-Barrgrove Company was entered March 1, 1935, and Lynn Helm was appointed by the court to determine the amount of damages, which he fixed at \$23,248. The association settled its obligations and since then has had no trouble with the patentees. The bill of complaint filed yesterday alleges that Ramsey has not abstained from using the process, although he was early to the former suit, and has since been warned not to employ it. The company asks for an injunction to prevent further violation of its rights, an accounting, and damages. **New Type of Airship.** M. Sibilot, a Parisian aeronaut, has devised a new principle of aerial navigation which he anticipates will solve the problem of traveling through the air. He has completed the plans of a new dirigible balloon, which, he maintains, will be manageable in any weather. He proposes to carry in his aerial machine a refrigerator and a heating apparatus. By simply pressing a lever of the former he thus reduces the temperature of the gas, the condensation causing the balloon to descend. On heating the hydrogen the gas expands and thus the balloon ascends. By this alternative heating or cooling of the gas in his balloon he can rise or fall at will without allowing any of his hydrogen to escape. **SOZO DONT TOOTH POWDER** imparts a sensation so exquisite and lasting. It cleans the teeth and gives tone to the mouth. Ask your dentist.

**Buy Christmas Footwear at Staub's**  
Gift giving need not cause you a single worry. There isn't a member of your family—father, mother, brother or sister who wouldn't be delighted with a pair of Staub shoes or a comfortable pair of Staub house slippers. Such a gift is sensible and the very fact that it comes from Staub's will add materially to its acceptability. Don't let the matter of size or style bar you from giving footwear. Just give  
**Slippers For Him**  
Men's Black and Tan Slippers, of fine quality kid. \$1.50  
Men's Felt Romeo—the famous Alfred Dolge make. \$2.00  
Men's Black and Brown Vici Kid Slippers—kid lined—4 different styles. \$2.50  
Men's Brown Alligator Slippers with Russian Calf Trimmings. \$3.50  
**A Staub Shoe Certificate**  
Let the one who receives the gift come at any time after the holiday rush and select the right size and style leisurely—in comfort.  
The Staub display of cosy house slippers is particularly noteworthy. The most novel, the daintiest styles for men, women and children are shown. The variety is great—the prices are sensible.  
As a convenience to our customers this store will remain open Thursday, Friday and Saturday evenings this week and next Monday evening.

### *Self-Initiative Is Keynote of the Day.*

**WOMEN MUST "HOLLER".**

In the afternoon, both institutes came together for a Policeman's High School where section meetings almost too numerous to mention were held, and at every one of them there was a speaker. The subject of the auditorium was filled to her accompaniment on "What Is Most Important in Teaching," the topic that was being discussed in all the other sections at the same time.

Several fine-looking women took part in the talk, but the audience could not be heard beyond the front rows of chairs. Speakers must be heard, and the speaker must be heard. As the last speaker was talking, one timid woman ventured forth, and said that the demand for a headless case was not a demand.

**SELF-GOVERNMENT.**

# GIFTS OF GOLD COME TO THEM.

MAJ. AND MRS. HARDIE WED  
HALF A CENTURY.

Former Came Here Thirty Years  
Ago and Took Hold of Young Men's  
Association When It Was  
in Debt and Janitor Had Charge of  
the Quarters.

Wed., December 17, 1856, in the  
city of the stirring events which cul-  
minated in the Civil War. Maj. and Mrs.  
Hardie last night celebrated  
their golden wedding with a simple  
dinner at home in the parlors of the Hotel  
Merrill.

All day letters and telegrams, from  
all parts of the world, poured in on  
the major and his wife, and the  
golden presents—gold chains and lock-  
ets—many other pretty  
reminiscences, but most valued of all  
the golden words which came  
from the loving hearts in the  
streets where the major and his  
wife have made their home.

At 10 o'clock, friends of the con-  
gratulatory were presented at the hotel,  
where can we put this? Where

## A CLOCK OF GLASS.

Wonderful Production of an Aged Bo-  
hemian Glass Polisher After Six  
Years' Work.

A somewhat futile feat of painstaking  
ingenuity has been accomplished  
after six years continuous work in the  
construction of a working clock every  
part of which except the springs is  
made of glass. The constructor is a  
Bohemian glass polisher named Joseph  
Isayer, who lives in Teresienstadt and  
who is now 71 years old.

The plates and pillars which form  
the framework are of glass and are  
bolted together with glass screws. The  
dial plate, hands, shafts and cogwheels  
are of glass and glass wedges and pins  
are used for fastening the various  
parts of the running gear together.

All these parts are ground to the  
average proportions of the metal parts  
of other clocks of the same size. The  
teeth of the cogwheels are cut with  
minute exactness. Only the balance  
wheel is heavier and thicker than it  
would be in an ordinary clock, but it  
is fashioned so as to properly control  
the movement of the machine.

Like the clock itself, the key with  
which it is wound is of glass. The  
completion of the work was a matter  
of infinite pains. Some of the parts  
had to be made over and over again  
as often as forty times before a clock  
that would go and keep time was pro-  
duced. The builder sets a price on the  
finished model of 2500 marks, or about  
\$625. Labor is cheap in Bohemia.

## FOOD THEORIES OF ZOROASTER.

WHAT WE EAT GUIDES MENTAL  
AND PHYSICAL ACTS.

Looks as if the Ancient Philoso-  
pher Had a Little Christian Sci-  
ence Mixed Up With His Belief  
About the Action of Foods—Think-  
ing Had to Go With Eating.

That a person may so feed himself  
as to be able to do any given kind of  
work with ease and efficiency and  
without fatigue is the contention of  
Dr. T. J. Bettero, a New York teacher  
of the philosophy of Zoroaster. He be-  
lieves that the inclinations and pow-  
ers of the human mind and body have  
their source largely in the vibrations  
resulting from the chemical action set  
up by food.

This conclusion, he says, is based on  
verified statements found in the old  
wisdom books. At different times he  
and others have confined themselves  
to foods which are said by these old  
books to stimulate various centers of  
activity in the body and have care-  
fully noted the results.

These results in a general way indi-  
cate that a generous meat diet invari-  
ably increases the inclination and  
ability to show physical activity. Also  
that it imparts for the time being  
characteristics of animal life, modified  
and refined, of course, but still essen-  
tially the same.

Rice was found to produce much the  
same vibration as meat, though more  
subtle and persistent, and in addition  
to stimulating physical activity, it  
furnished pabulum for those centers of  
control which direct the finer, less ob-  
vious and more potent forces.

The two foods, rice and meat, it is  
explained, might be compared to steel  
and iron, rice representing as a food  
steel, and meat iron; but, it is added,  
to get this result from rice it must be  
prepared properly and also combined  
with certain other foods.

Fruits in a general way stimulate  
the mind to considering the spiri-  
tual side of life. For instance, a  
mother desiring to direct a child's  
mind into these channels would be  
able to accomplish her purpose with  
much greater ease if a generous part  
of the child's diet was of peaches, or-  
anges and grapes or raisins.

As there is no age limit when the  
controlling power of food ceases, it  
might seem that a wife could manage  
her husband as well as her children by  
feeding him properly. As fruits stim-  
ulate the affectionate as well as reli-  
gious sentiments, a double advan-  
tage might be scored by making them  
a large part of her husband's diet.

But here lurks a danger. It is not as-  
serted that this diet has any directing  
power. Therefore should wives feed  
their husbands in such a way as to in-  
crease the sentimental tendencies they  
might not personally reap the reward  
of their effort.

All sugars, so it is said, have a ten-  
dency to increase the activity of those  
centers of vibration which augment  
the affectionate. It is also set forth that  
foods opposed to sweets, as those that  
are sour or bitter, stimulate the will,  
making those who eat them deter-  
mined, persistent and less subject to  
the sway of the emotions.

In corroboration of this assertion, it  
is pointed out that men take sour  
wines in preference to sweet wines; are  
fond of acid condiments; in fact, as a  
rule use strong foods that are not  
sweet and do not care for those which  
are sweet and that they are stronger  
of will, more forceful and not so easily  
moved by sentiment as women.

In speaking of the foods suited to  
different kinds of work it was said that  
those who would devote themselves to  
intellectual pursuits should switch off  
the material vibrations by eschewing  
meat, pastry and all heavy, rich foods.

Having done this, to put in commission  
those centers which control the vibra-  
tions pertaining to the mind they  
should eat pears, maize, breads, birds,  
fowls, fish and all kinds of sea food,  
but not more than three or four dif-  
ferent kinds at one time. In general it  
is held that alkaline and saline flavors  
relate to and stimulate vibrations  
which make for intellectual activity.

A brain worker, it is asserted, can  
labor for many hours with little or no  
fatigue when he has fed himself for  
his work; although it is generally con-  
ceded that a few hours of intellectual  
work is more fatiguing than a day of  
manual labor. If this theory be true,  
it is somewhat appalling to think what  
an amount of literature, addition to  
that already produced without regard  
to food vibrations, might flood the  
world with the aid of Zoroastrian pre-  
cepts. It would then be necessary to  
determine just what food would enable  
the public to read it all; in fact,  
knowledge of such a food is now a  
need in the opinion of some people.

That the action of the mind has  
much to do with accelerating or re-  
tarding the results of any vibration is  
especially emphasized. That is, the  
food calculated to enhance mental ac-  
tivity would have much more potent  
effects if eaten with that end in view,  
and the same would be true of other  
foods.

"Chemical action is but a readjust-  
ment of the atoms," said Dr. Bettero,  
"and the vibrations caused by love,  
peace and high spiritual exaltation  
correspond to certain food vibrations,  
and when one puts himself on a diet  
which would have much more potent  
effects if eaten with that end in view,  
and the same would be true of other  
foods."

The truth is the therapeutic value  
of thought, as for instance of cheer-  
fulness and good feeling, is not sur-  
prisingly influenced by the food, and there  
is nothing which may be depended on so  
surely to correct surpluses of "vibra-  
tions," even when they are an inher-  
itance.

It is equally a fact that consciously  
directed thought is no less a power in  
emphasizing the vibrations set up by  
the chemical action of food. Let him

who doubts this observe for himself  
and he will be convinced."

It was further asserted that much  
illness has its source in the conflict set  
up by eating foods which are antago-  
nistic in their vibrations, since ultimate-  
ly they throw out of adjustment the  
physical machine and completely dis-  
order the equilibrium within the body.  
A great variety of food eaten at one  
time tends to this, and when one eats  
food calculated to stimulate physical  
activity and is engaged in work which  
takes the mind only he sets in opera-  
tion opposing forces which are certain  
to work him woe.

Retaining food in the mouth until it  
becomes tasteless tends, it is stated,  
to unify vibrations. This is considered  
the chief reason why to eat deliberately  
is especially conducive to good  
health, since the chemical action of  
what is eaten then becomes nearly  
synchronous and facilitates rhythmic  
equilibrium in the body.

Vibrations, it is said, like muscles  
must be put in training to insure good  
results. Some little time before work  
is to be undertaken one should, accord-  
ing to the tenets of this cult, begin to  
diet for the results he desires to gain,  
since the effect of food vibrations is  
cumulative rather than immediate.

Still it is said that results are often  
noted in a very short time, especially  
when a radical change of diet is in-  
augurated. With the one has, for in-  
stance, been eating food that controls  
the activity of the mind and changes  
to a diet of red meats pronounced in  
clination to indulge in physical activi-  
ty is often at once noted.

Nuts and other foods rich in oils  
are also said to produce quick results,  
as they supply carbon, which furnishes  
a motive power that quickens and  
increases energy throughout the body.

That eating food with reference to  
vibrations and with thought directed  
to the result desired, will eliminate a  
craving for alcoholic and other stimu-  
lants is another assertion made by  
those who hold that food vibrations  
are, in their way, as important a power  
as any in nature.

Also, it is held that a change of  
diet, with reference to the vibrations,  
greatly enhances efficiency. That is,  
after a brain worker has, for exam-  
ple, been eating a course of diet for his  
work and continued it for some time,  
he should not go on indefinitely with  
either the work or the diet, but should  
lay aside the one and change the other.

It is explained that by following this  
course the different centers are rested  
and the result is much the same as  
when plants, by artificial means, are  
rested for a time held in a quiescent state.  
M. Leblanc and others have demon-  
strated that when flowering plants  
are forced to rest by being chloro-  
formed, they bloom sooner and pro-  
duce finer flowers than those allowed  
to grow in the usual way.

As illustrating in a large way the  
effect of food vibrations, attention was  
called to the peculiarities of different  
nations, and what they eat.

Taking England, it was pointed out  
that the patience, strength and force  
of the ox have been distinguished, and  
been the source of the triumphs, of  
that beef-eating people. The French,  
who eat, though sparingly, of every-  
thing the earth affords, are as mer-  
curial as their food is varied.

The Russian peasant, who lives on  
food which neither in substance nor  
preparation makes any appeal to the  
higher vibrations, is slow, heavy and  
utterly unable to perform any work  
of meeting injustice save by a  
more violent wrong.

The Hindu, living without change on  
small quantities of such foods as stim-  
ulate religious sentiments, is a  
dreamer, since from lack of sustenance  
and use the centers controlling the  
physical activity are atrophied. The  
Japanese, on the other hand, who have  
deep knowledge as to food values, have  
the endurance and brain activity which  
the foods they eat would naturally in-  
sure.

In addition to other things the food  
vibration cult insists that all that is  
eaten should be very carefully pre-  
pared. Since this is so, it is held, the  
cook more advantage than he already  
has, it would be lamentable did the  
teachers of the cult not add that the  
vibrations of uncooked food are much  
stronger than those of cooked food, and  
that a certain proportion of uncooked  
food should be used daily. This and  
keeping the thought throttle open and  
holding the will directed and steady  
will, it is averred, produce results  
such as the most skeptical must admit  
after a little observation.

It is confidently asserted that when a  
"knowledge of the power of vibra-  
tions becomes general women will  
teach their children what to eat to  
secure certain results. Then, it is  
firmly held, it will be no longer the  
hand that rocks the cradle, but the one  
that makes the menu which will rule  
the world.

It is predicted that when this comes  
to pass men will live to a great age,  
many things now eaten will be  
thought fit for food, illness will be rare  
and all work will be done with so much  
greater ease that leisure will be at the  
command of all.

The Smallest She Had.  
A conductor on the O'Fallon Park di-  
vision of the St. Louis and Suburban  
R. R. had such a good run of busi-  
ness Sunday afternoon that he has  
difficulty in keeping himself supplied with  
small change. Many people who patron-  
ized his car during the day, and a bill  
of larger denomination in payment  
of their fares.

The improvement has been brought  
about principally through new designs  
and methods of manufacture of rails.  
A "track indicator" car, traveling  
twenty or thirty miles an hour, sums  
up the inequalities, the "ups and  
downs" in the rails for each mile trav-  
eled. Formerly the "total inequality"  
per mile amounted to six or seven feet,  
even for the best roads; now it has  
been reduced to only eighteen or twenty  
inches, and this remnant is said to  
be due to dents in the rails.

It has been pointed out that the  
improvement, which may be carried  
farther, brings with it heavier locomotives  
and cars, longer trains and higher  
speed.

Wanting the Bundle.  
"Have you lost anything, madam?"  
asked the polite porterwalker of the  
square-jawed, austere-looking shopper  
who stood before the "lost and found"  
window of the large department store.

"Yes, sir," she replied. "I've lost 114  
pounds of husband, in a light brown  
suit, with black derby hat. The last I  
saw of him was in a crush at the fancy  
goods counter. It's been five days since  
I saw him, and I thought perhaps you could  
find it easier than I can. I was it  
on account of a bundle it is carrying  
under its arm." [Woman's Home Jour-  
nal.]

## Beautiful Palms

## We Offer You

Overlooking the  
City and the Sea

THE OPPORTUNITY TO GET IN ON THE GROUND FLOOR AT PALMS, THE HALF-WAY  
CITY BETWEEN LOS ANGELES AND THE SEA, THE MOST IMPORTANT SUBURBAN COM-  
MUNITY ON THE REORGANIZED AND IMPROVED LOS ANGELES-PACIFIC RAILWAY SYS-  
TEM, BEHIND WHICH ARE MILLIONS CON-  
TROLLED BY THE RAILROAD KING OF AMERICA,  
E. H. HARRIMAN.

We got in early, we OWN the Winship Water Plant  
and 379 acres in and around Palms. We are giving home-  
seekers, investors and speculators the chance of their lives,  
whether they are seeking a "quick turn" or a permanent  
investment.

We offer a small block of the stock of the parent company.  
This is the best investment of the kind on the market. You  
will be convinced in short order when the facts and figures are  
laid before you.

We are organizing several syndicates for the subdivision  
of acreage. They will make big DIVIDENDS for the share-  
holders.

Lot prices are lower in Palms right now than  
they ever will be again. We do not believe in  
making prohibitive prices. We want our cus-  
tomers to get a fair share of the profits. The  
more they make the better it is for us.

It is not necessary to enlarge upon what  
Palms is or what it has been. Its reputation as one of the most  
healthful localities in the United States is firmly established.  
What most interests us all now is, what Palms is sure to become.  
Let us tell you more about our plans. Go out and see Palms and  
breathe real ozone. It will cost you nothing. Free tickets at our  
offices, and automobiles meet all short line cars

SCORCHERS TO BE PUNISHED.

MANY WARRANTS SERVED ON PROMINENT AUTOISTS.

Pasadena Police Claim to Have Abundant Evidence and Mean to Teach Speeders Lesson—Some Los Angeles Men Caught by Crown City Officers.

Office of the Times, No. 26 S. Raymond Ave., Pasadena, Dec. 18.—Any idea that the police were slumbering was ruthlessly shattered yesterday morning, when two officers appeared before Justice McDonald and secured warrants for the arrest of nineteen violators of the speed ordinance. The warrants are all made out in the name of "John Doe" but it is rumored that the officers know the names of the men they are after and that there will be some excitement when the warrants are served.

There have been renewed complaints of late concerning reckless individuals who drive automobiles through the streets in a manner calculated to endanger the lives and limbs of the less fortunate mortals who are compelled to walk. A number of these men were made last week, but it seemed that nothing but a severe lesson would bring the offenders to their senses. The officers started out after evidence, and were so well rewarded that they are now in a position to make a number of arrests.

Automobile scorching is one of the offenses which the police have great trouble in containing, and it is necessary to take extreme measures in order to put an end to the practice. The long, well-paved streets furnish capital speedways for the fast young men who like to burn up the ground, and when they once get a fair start it is impossible for a patrolman to stop them.

The scheme of stationing two officers armed with stop watches along the line of travel favored by the speeders has proven very satisfactory, however, and in this manner it has been possible to secure evidence against a number of men, who will now have a chance to contribute to the support of the city through the medium of the Police Court.

The scorching habit is not limited to the men of Pasadena, for several women have acquired it, and pedestrians have been in serious danger of injuries to life and limb. Late yesterday afternoon several warrants were served on well-known Los Angeles motorists who were driving too fast.

Car No. 622 was found to belong to Harry Burr of Los Angeles. When served with the warrant, Mr. Burr stated that his chauffeur had taken the car without his permission, and that he had discharged the man in consequence. He will face the case in the courts, it is thought.

Others served with warrants were P. H. Johnson, No. 10, Los Angeles; George Sturges, manager of the Los Angeles Auto Vehicle Company; No. 319 Douglas building, Los Angeles; and Robert A. Rowan of Los Angeles.

In nearly every case the men denied having driven the cars themselves or having been in them, and in many cases blame on chauffeurs who had taken the machines out of the garages without permission.

**RUSHING AT POSTOFFICE.**  
The clerks in the postoffice are working under heavy pressure this week, and the work of caring for the increased quantities of mail is being done constantly busy. The cramped quarters of the present office hinders the ready transaction of business, and for more work is entailed on each man than would be the case if there were some more room and better facilities.

The new postoffice quarters on North Raymond avenue are about ready for occupation, and will probably be used as soon as the Christmas rush is over, but for the time being the department will have to put up with the inconveniences experienced in the old quarters. The new home will be ample in size for all demands made upon it.

The money order department is particularly busy these days. Yesterday morning when the money order man opened his window at 9 o'clock there was a line of people reaching away to the sidewalk, and the line grew longer. The registry window is also the scene of great activity, and the money order man is doing his share toward supplying Christmas presents for the country at large.

**IMPORTANT SALE.**  
The most important real estate sale that has been put through in weeks was completed yesterday afternoon when the brick business block at No. 26 East Colorado street was sold by George E. McGee to the Kiehl Investment Company. The sale was made through the agency of the Stowell & Sullivan Co., and the consideration is said to have been \$40,000.

The property has a frontage of twenty-five feet and is occupied by a three-story brick building, the lower floor of which is leased to the Sargent Shoe Company. It was announced immediately after the sale was made public that the Sargent Company had secured an extension of one year for four years more, so there will be no change in tenants at present. The upper stories of the building are occupied by offices.

ALCOHOL BATH PROVES BURNER.

AGED LONG BEACH MAN GETS BAD SCORCHING.

Fluid in His Hand Catches Fire, But He Has Presence of Mind to Throw Bottle Away and Avoid Explosion—Londons Officer Asks for Information about Hotel Bixby.

PASADENA, Dec. 17.—J. W. Boyd, an old resident of the city, was badly burned last night while the act of taking an alcohol bath. While he was holding a bottle of alcohol in his hand and getting too close to the fire, the fire in his hand burst into flames. With remarkable presence of mind Mr. Boyd threw the bottle of fluid away from him, preventing a disastrous explosion, but before he could extinguish the fire his hand and arm were badly burned. Recently Mr. Boyd suffered a stroke of paralysis and has been taking the alcohol baths regularly.

**REQUEST FROM LONDON.**  
Building Inspector George A. Newcomb today received a letter from W. T. Riley, superintendent architect of the City of London, enclosing a clipping of a Reuter dispatch relative to the Hotel Bixby disaster, and stating that the subject of reinforced concrete construction is under consideration in London, and that rules are being drafted regulating its use. Mr. Riley asks for any particulars as to the cause (when determined) of the disaster. Though there was no dispatch on the letter, the building inspector will take pride in answering, as it is probably unique in the history of correspondence between this country and England. As soon as the expert's report is made public a copy will be forwarded to Architect Riley.

**SEASHORE BRIEFS.**  
Friends of Rev. Chester P. Dorland, pastor of Plymouth Congregational church and resident of Beach, Chautauqua, are congratulating him over a bit of good fortune. Fourteen years ago Mr. Dorland purchased a tract of land in the city of Monterey, California, for \$200. This tract was sold to the city of Monterey for \$200,000, and Mr. Dorland is now a wealthy man.

Mr. and Mrs. W. A. McHenry and Miss Abbie McHenry of Ford place have returned home after spending the summer at their old home in Dennison, Iowa.

Mr. Armstrong and Miss Marion Armstrong have returned to their home in Alhambra after spending the summer at their old home in Dennison, Iowa.

The annual fair held on Saturday by the Non Nobis Sales Society of the city was a success, and the members netted a nice little sum for their charity.

This afternoon at the home of Mr. and Mrs. John D. Merseaux on East Villa street the members of the Girls' Debating Club of the city met to entertain the Boys' Debating Club of the same school.

Mr. and Mrs. Hiram W. Wadsworth will be at home at their new residence, No. 427 South Orange Grove avenue after December 20.

**NOTED ARTIST'S VISIT.**  
Painter of Pops and of the Crowned Heads of Europe, Will Return to Avalon.

**AVALON.** Dec. 17.—Henry Jones Thaddeus of the city, who has been spending months in California, left yesterday for a visit of a fortnight to the mainland. He will return for the winter. Mr. Thaddeus is a painter of the heads of the crowned heads of Europe, and enjoys the acquaintance and friendship of a good many of the crowned heads of Europe. He has painted portraits of nearly all the crowned heads of Europe, and has been painting them for many years.

The bath-house wharf is being prepared for the generalization of the bathing season, which is to go into effect January 1. Landing steps are being put in, with other accommodations for the summer season. The wharf is being extended to the water, and the bath-house is being built on the wharf.

George W. Shaw, superintendent of Catalina Island, who has been in Arizona for six weeks, is again at his post of duty. Two white sea bass were caught in the bay yesterday by Yellowtail Johnson, a most unusual catch for the season of the year. E. H. Brewster supplemented this catch this morning by taking four yellowtail. All were caught in Avalon Bay.

**ALHAMBRA LIBRARY ASSURED.**  
ALHAMBRA, Dec. 17.—The Alhambra Public Library is assured of the future of the high school building, which is to be used as a library. The books will probably be accessible by the new building.

The Board of Trade, Wednesday afternoon club and the Alhambra Improvement and Social Club will meet in their new quarters at the high school building next Thursday evening. The object of the meeting is to bring about a united effort for general municipal improvement. There will be a musical program and refreshments.

The Alhambra Improvement and Social Club are the pleased recipients of a handsome silver loving cup, the gift of the Alhambra Public Library. The cup is to be awarded to the club showing the greatest improvement for the year, and is to be placed in the room of the Public Library, with a card suitably inscribed.

Miss Rebecca Hobson of Astoria, Or., is the guest of Miss Halsted.

**VOTE TO APPEAL.**  
SANTA MONICA CITY TRUSTEES WILL TAKE SEWER MANDAMUS CASE TO SUPREME COURT.

[SANTA MONICA, Dec. 17.—(Exclusive Dispatch.)] The City Trustees met tonight when, for the first time in a good many weeks, there was a full board present. The trustees discussed the sewer mandamus case, and the city engineer, who had been away from the state, had just returned.

There was a large attendance of spectators, and the sewer question was given over with more than common interest. The board voted to appeal from the decision of the lower court, and the city engineer, who had been away from the state, had just returned.

**SANTA MONICA JOTS.**  
John C. Ing, a member of the City Council of Sacramento; George M. Randall, City Engineer of the Capital City, and Charles R. Haddock, member of the Board of City Trustees of Fullerton, constituted a party of visitors to the city tonight.

They came for the purpose of making a searching investigation relative to the "Santa Monica" method of filling streets and alleys with concrete. They expressed their surprise at the method, and the class of improvement, following the tamping of concrete.

A fire broke out in the engine room of the steamer Fashion this afternoon as the boat was leaving her moorings. The fire was caused by a gas leak, and the steamer ran alongside the west end of the wharf, where she was burning. The fire was extinguished by the fire department, and the steamer was damaged.

The case against Dr. W. H. Pritche, charged with selling liquor, was dismissed today. This was a result of the recent "blind-pipe" raids, made on the city limits. The police claim that most of the alleged detection, most of which proved to be misadventure.

**SAID IN AZUSA.**  
AZUSA, Dec. 17.—William L. Griffith has purchased a new home in Azusa, where he will build a 3000 residence for a permanent home. He is a well-known resident of the city, and has been in the city for many years.

Ralph, the 7-year-old son of Frank Watson is recovering very slowly from an attack of pneumonia. The funeral of W. R. Keefe was held yesterday at the Presbyterian church.

**WHITTIER'S REAL BELLS.**  
WHITTIER, Dec. 17.—Two of the six bells which were part of the old bell tower of El Camino Real were put in place this week. These two are at the corner of El Camino Real and the Whittier State School. The others, which are at Mrs. Strong's place, Rancho del Encino, are being moved to the corner of the old points along the county road through East Whittier, will be put in place by the city.

A new paper, "The Whittier Express," made its initial appearance last night. It is a weekly paper, and is published by Jake White, editor and publisher.

**POMONA PARAGRAPHS.**  
POMONA, Dec. 17.—Sixth street is being opened to traffic from the station to the city. The new subdivision fronting on the station is being built, and the electric road along Fifth avenue.

John K. Wright has purchased the old Catholic Church on Main street, and Arthur Wright has bought the old Catholic Church on Main street, and Arthur Wright has bought the old Catholic Church on Main street, and Arthur Wright has bought the old Catholic Church on Main street.

June days. Xmas week at Coronado. There is great comfort in tea and coffee, good tea and coffee—Schilling's Best.

TWO MINERS BLOWN TO PIECES.

WHILE THAWING POWDER IN ZINC MINE.

One Man Is Decapitated and Other Badly Injured—The Other is Fearfully Shattered and Both Have Clothing Torn Off by the Explosion. Burglar Is Frightened Away.

SANTA ANA, Dec. 17.—Two miners were killed yesterday afternoon in the mines of the Western Zinc Company in the Silvestre Canyon, a branch of the San Gabriel, twenty-five miles east of this city. Word of the terrible tragedy was brought to Coroner G. S. Smith early this morning, and he left immediately for the scene.

One miner named J. L. Brown was decapitated. The other was fearfully shattered, and with every stitch of clothing torn off. The explosion occurred yesterday afternoon at 2:30 o'clock. The two men were in the mine, and were working on the magazine to get powder to finish the day's work. The Sunday shift was on duty, and the men were working on the magazine. The explosion occurred when the men were working on the magazine. The explosion occurred when the men were working on the magazine.

## MUCH CEMENT TURNED DOWN.

SHARP TESTS MADE SINCE THE  
BIXBY DISASTER.

Contractors Consider It All Worth-  
less Until Proven Good, and Find  
Quality Inferior Because of the  
Rush in Manufacture to Supply the  
Unprecedented Demand.

No bank robber or hold-up man was  
ever looked upon with the suspicion  
that every Los Angeles contractor now  
devotes to cement. Cement is now to  
the contractor what every stranger is to  
a bank—considered dishonest until  
proven otherwise. Cement is now con-  
sidered by every contractor in the city  
to be rotten to the core, not roasted  
enough, and containing too much free  
lime, until his own personal tests show  
it to be a sure-enough cement.

This condition has been brought  
about by the disaster which occurred  
at the Bixby Hotel in Long Beach. It  
seems to be the consensus of opinion  
among the contractors that the fault  
lay with the cement used. As a result  
there has been a scramble among the  
smaller contractors to conduct tests of  
their own to show the quality of the  
material they employ, and likewise to  
protect them against criminal liability  
for the possible collapse of buildings  
they are constructing.

Some of the larger contractors, those  
who use thousands of barrels of the  
material, have for years been conduct-  
ing their own testing departments, and  
have not used one barrel of cement  
that has not been tested to their  
own satisfaction and shown to be  
sound.

There are so many things which  
have to be taken into consideration in  
testing the quality of cement that, as  
a rule, the contractor is satisfied if  
one or two of the conditions are met  
and he does not ask for the entire list  
of necessary tests, said Carl Leonard  
yesterday. "Cement should be tested  
first for its tensile strength, then for  
its fineness, and then given a boiling  
test to determine the presence of free  
lime. If the tensile strength fails it is  
known that the mixture of silica,  
alumina, iron oxide and lime is de-  
fective, and while each of the ingredi-  
ents may be in perfect condition, the  
mixture is incorrect. Then if the boil-  
ing test shows that it has not been ground  
properly, it will demonstrate that the  
ordinary time allotted for the cement  
or concrete to set will not suffice for  
this coarse material to properly harden.  
Then the third test, that of boiling a  
piece of cement, if it cracks in the  
boiling water, it will show that there is  
free lime in the material, or in other  
words, the lime has not been roasted  
long enough, and it will swell and  
crack."

These are the three tests which all  
cement should be subjected to before  
use. All factories make these tests,  
or at least claim to make them, and  
when a carload of cement arrives at a  
factory, these tests are always accompa-  
nying a reputed official test of the contents.  
The trouble is that some contractors  
when they are hurried, will accept this  
factory test and go ahead and build  
their concrete structures. In some in-  
stances the factory tests are wrong,  
and the only safe way is to test every  
carload of cement that a contractor  
uses. Since I have been in the con-  
tracting business I have made it a  
rule never to accept cement from a  
factory without testing it."

Several of the other large contrac-  
tors in the city have also made it a  
point to always inspect and test the  
cement they use, but never before has  
cement been so suspected of being  
anything but good as it is now in Los  
Angeles. In the opinion of the contrac-  
tors the Bixby disaster was a lesson  
by which all of them have learned.  
The greater portion of cement which  
is used in Los Angeles comes from  
either Colorado or this state, while a  
portion of it comes from as far east  
as Kansas City. The exhaustive tests  
made of the material lately has re-  
sulted in carloads of it being rejected.  
The contractors will not talk of this  
rejected material, but are selling it to  
say that the rush with which cement  
is now made, owing to the unprece-  
dented demand, has resulted in a hap-  
hazard method of manufacture, which  
has not made for a good material.  
"Wade & Wade, chemists and assay-  
ers, stated yesterday that they have  
been overrun with applications for ce-  
ment tests from the contractors of the  
city. They say it is necessary to have  
all three of the tests enumerated above  
made before the quality of the mate-  
rial can be properly estimated."

**HIGHER FREIGHT RATES.**  
Pacific Coast Steamship Company An-  
nounces New Schedule Between  
Los Angeles and Frisco.

A change of freight rates has been  
announced by the Pacific Coast Steam-  
ship Company between San Francisco  
and Los Angeles, to take effect Thurs-  
day. In classes Nos. 1 and 5, also sub-  
divisions C and D the rate has been in-  
creased thirty cents per ton. Classes  
2, 3, 4, and subdivision A, B, E, a rate  
of twenty cents per ton goes into effect.  
No definite reason has been given for  
this increase.

The demand of the firmers employed  
on the vessels of this company for an  
increase in wages was agreed to, and  
this is one item that has increased the  
cost of transportation.

The effect of this raise in freight  
rates directly interests Los Angeles,  
and not the cities north of San Fran-  
cisco. Through rates to points north  
of San Francisco will be made up on  
a basis of the increased rate from this  
city.

The four-day schedule between Los  
Angeles and San Francisco, which had  
been discontinued for the past few  
months, is again in effect. The first  
steamer sailing under the new rule  
reached San Pedro yesterday. At the  
outbreak of the longshoremen's strike  
the steamship company discontinued  
altogether its service to San Pedro, us-  
ing instead Santa Monica or Redondo  
as ports of discharge.

**JAPANESE DINNER SETS.**  
Opportunity for Times' Subscribers to  
Make Lovely Christmas Gift.

The Times has just received a small in-  
ventory of genuine Japanese dinner sets.  
Each of the forty individual pieces is art-  
fully hand-decorated in purely Japanese ef-  
fect.  
Complete sets are on exhibition at the  
Times office, and an attractive offer at less  
than cost is being made. The sets will  
be made to regular Times subscribers. So  
long as the supply lasts, the sets will be  
made before Christmas. A set  
will be made for subscribers who have  
not yet made their subscription for 1935.  
Call at the Times office, examine the dinner  
sets, and the offer will be explained.

**To Residents of San Francisco:**  
The San Francisco Call, now the best San  
Francisco newspaper, has opened a branch  
office at 225 South Broadway, where all  
subscriptions and advertisements will be  
received. Send in your subscription or  
advertising order to this office. It will be  
delivered to you daily by carrier.  
Wm. Winick, Agent, Telephone Main 2501,  
Room 412B.

**Bridge Whist and "500."**  
and other card games, including the  
latest, will be played at the  
Johns & Co., 225 S. Broadway.

**Artistic Taxidermy.**  
Marie & Jenks, 203 S. Main.

## VISIT the FARM

### Cawston Ostrich Farm and Feather Factory

Has Opened a City Sales-  
room in the Bradbury  
Block, 224 West Third St.

Cawston Ostrich Feathers Make Splen-  
did Presents to Send Eastern Friends

**CAWSTON'S Famous Plumes,**  
Tips, Boas, Stoles and Fans  
For Sale at Producer's Prices.

Every feather purchased here bears the Caw-  
ston trade mark, which certifies that the article  
upon which it is placed is the best of its kind  
in the world.

#### Repair Department

Leave your old Ostrich Feathers at our Los Angeles sales depot  
and we will have them recurred and repaired by the same skilled  
operators who make our new goods at the factory in So. Pasadena.

Take South Pasadena or Ostrich Farm Cars on Main St.

## ONLY TWO DAYS MORE—TODAY AND TOMORROW

Office Open Wed-  
nesday Till 10  
P. M.

To Buy Stock of the United States Granite  
Pressed Brick Company at \$6.

Shares Will  
Worth \$50 Within  
a Year

..... Wednesday You Pay \$7 .....

IT IS THE GREATEST MONEY-MAKING INVESTMENT OF THE AGE

This probably has been the fastest selling stock ever placed upon the local market. The first allotment was oversubscribed at \$5. The second allotment, which is nearly sold out now, will have been  
exhausted by Wednesday evening. We reserve the right to advance to \$7 at once should the \$6 allotment be closed out before Wednesday at 10 p.m.  
The United States Granite Pressed Brick Company is purely local. The plant site is already secured at Fifteenth and Alameda. The demand exists for our brick, which is the finest pressed brick that  
can produce. Compared with the old-fashioned way of making pressed brick, our process is superior as day to night. We not only make better, cheaper and handsome brick, but make it at one-half  
the cost. We can turn out 20,000 daily at \$7 a thousand, and selling at the ruling prices, \$35 to \$60.  
Every dollar invested will yield remarkable dividends. There are only 25,000 shares of stock, par value \$10 a share. You can buy them now at \$6 each. They will be worth \$50 each within a year,  
producing big dividends in a business as staple as salt.

**Don't Wait Till the Allotment Is Closed Out
